SERMON, W. A friend to the sick: or, The honest Englishman's preservation, shewing the causes, symptoms and cures of most occult and dangerous diseases which afflict the body of man, with a particular discourse of the dropsie, scurvy and yellow jaundice, and the most absolute way of cure. Whereunto is added, a true relation of some of the most remarkable cures effected by the author's most famous cathartick and diuretique pills, wherewith was cured his late grace, George, Duke of Albemarle, etc. Set forth for the publick benefit. 275p. 8°. Lond., 1673.

WILLIAMS, W. H. Observations proving that Dr Wilson's tincture for the cure of gout and rheumatism is similar, in its nature and effects, to that deleterious preparation, the Eau Médicinale, vii, 25p. 4°. Lond., 1818.
